

METAL SLATWALL SERIES

Heavy-duty Strength with Sleek Aluminum and Steel

The Metal Slatwall Series offers an unmatched combination of strength, durability, and clean design. Available in both aluminum and steel, this slatwall system is ideal for heavy-duty applications while maintaining a sleek, professional appearance.

Key Features

Customizable Grooves:

Available in both inline and staggered groove patterns, offering a distinctive aesthetic that stands out in any environment.

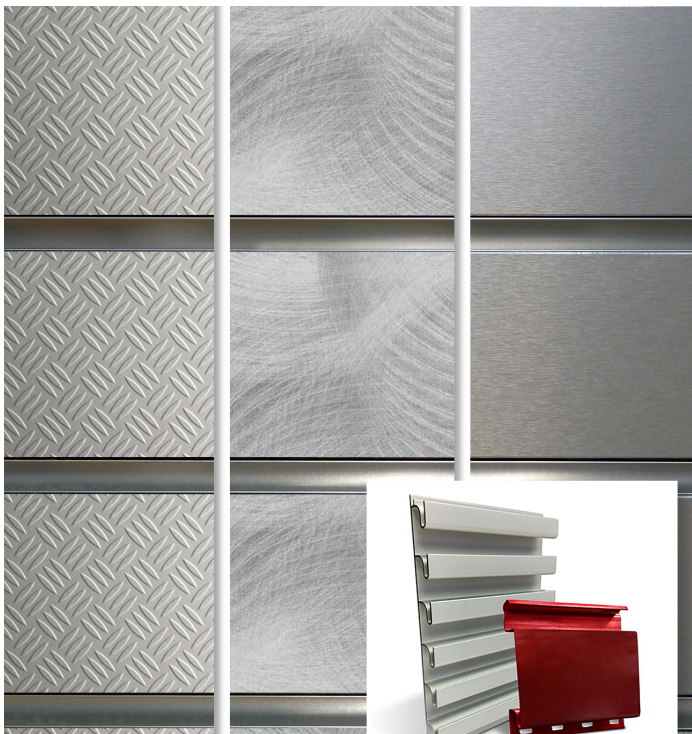

Versatile Configurations:

Supports a wide range of accessory placements, making it easy to create the perfect display for retail, commercial, or residential use.

Durable Construction:

Built with durable **high-strength particle board**, providing exceptional strength and reliability.

Customization Options

- **Slat Spacing:** Aluminum offers multiple on-center spacing options, while steel has a fixed 3" on-center
- **Finishes and Colors:** Available in a wide range of finishes and colors, providing endless design possibilities
- **Trim and Finishing Edges:** Customize with matching trim, finishing edges, corners, tops, and bottoms

Applications

- Heavy-duty retail and commercial displays requiring extra strength
- Industrial or commercial spaces that prioritize durability and clean aesthetics
- Any environment where both functionality and professional appearance are critical

Accessories Available

Compatible with a wide range of hooks, shelves, and baskets
